Experience

Freelancing & Collaborative projects

February 2025 - Present | Remote

Delivered end-to-end UI/UX design for small-scale projects. Co-authored a UX case study for "Consilia", applying Value Proposition Design framework to align user needs and business goals, resulting in a MVP concept.

UI/UX Skills Development & Mentorship

March 2024 - February 2025 Poland

Under professional mentorship, designed a mobile app for parents and caregivers, covering the full UX design process from user research to high-fidelity prototyping in Figma.

Product designer. Zleex

November 2023 - July 2024 | Remote

In my first collaboration with a product team, I participated in strategy meetings focused on enhancing our agency's pitch and visual identity. Researched AI-driven features to support a Product Hunt launch, redesigned buying flow for potential client.

Hackathon. MVP development of the service for bank employees. Study project.

September 2024 | Poland

Conducted product and competitor analysis, ran UX research to define user needs, co-built a UI kit, and helped lead final presentation to judges as potential stakeholders.
